ERP consultant at Mirandir (Odoo Silver Partner) with a background in industrial engineering and software development. I implement Odoo, build Python modules and connect client ERPs to AI assistants via MCP.

Experience

ERP Consultant · Mirandir (formerly Onmi Engineering)
Jul 2025 – present · Murcia, Spain, hybrid

- Own portfolio of clients in manufacturing, food and agriculture, distribution, e-commerce and field service: process analysis, configuration, custom development and support.
- Manufacturing (bills of materials, routings, lot and serial number traceability), quality and logistics.
- Python modules on the Odoo framework, using Git and development, staging and production environments.
- Web service integrations with e-commerce platforms and logistics providers, data migrations and dashboards.
- Integration of Odoo with AI assistants (LLMs) through MCP to query and operate the ERP in natural language.

Research assistant (UPCT) and intern (Cloud Incubator HUB · LEMAR)
Research grant: Nov 2024 – Jun 2025 · Internship: Jun – Aug 2024

- Development of an inspection management web app for LEMAR, an ENAC-accredited testing laboratory (ISO/IEC 17025): Python (Flask, Streamlit), REST API and MySQL.
- Deployment on Microsoft Azure with Docker and Container Registry, and CI/CD with GitHub Actions.
- Design of a PCB as teaching material for the Department of Automation, Electrical Engineering and Electronic Technology.

Projects

Comparison of base, instruct and reasoning models on Hugging Face (2026)
Personal experiment, published on LinkedIn.

Web app to automate inspections of gaming machines (Bachelor's thesis, 2025)
Guided form that validates the data, generates the PDF report and emails it to the client. Streamlit, Flask (REST API, JWT) and MySQL, deployed on Azure with Docker and CI/CD. **Grade: 10/10 with Distinction.**

Machine vision part inspection (Programming Languages course, 2025)
C# desktop app that detects and classifies mechanical parts in real time with an industrial camera: image segmentation and rule-based geometric classification with Emgu CV (OpenCV). Code on GitHub

Education

MSc in Industrial Engineering
Technical University of Cartagena (UPCT), Spain · 2025 – present

BSc in Industrial Technology Engineering
Technical University of Cartagena (UPCT), Spain · 2021 – 2025 · GPA 8.21/10 · 6 subjects with Distinction

High school (Bachillerato)
Colegio de Fomento Monteagudo-Nelva · 2019 – 2021 · Distinction and Outstanding Achievement Award

Certifications

Anthropic Academy · 8 courses (2026)
Claude 101 · AI Fluency: Framework & Foundations · AI Capabilities and Limitations · Introduction to Claude Cowork · Claude Code 101 · Claude Code in Action · Claude Platform 101 · Introduction to Agent Skills

Other: CCS-AI: Generative AI Foundations (PUE Academy and Microsoft, 2025) · Elements of AI (University of Helsinki, 2024)

Skills

- **ERP and processes:** Odoo (manufacturing, inventory, purchasing, sales, quality), process analysis, data migration
- **AI and computer vision:** LLMs, MCP, Claude Code, agents, Hugging Face, OpenCV
- **Development:** Python, C#, Flask, Streamlit, REST APIs, MySQL, Git, Docker, Azure, GitHub Actions
- **Engineering:** AutoCAD, SolidWorks

Languages

Spanish: native · **English:** C2 (Cambridge CPE) · **French:** B1 (DELF)
